Career objective

Passionate and detail-oriented Web Developer with hands-on experience in building responsive and user-friendly websites using modern technologies like React.js, Tailwind CSS, and Node.js. Eager to contribute to meaningful projects and grow as a full-stack developer in a collaborative environment.

Technical Skills

Proficient in front-end and back-end development technologies including HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Firebase, and MongoDB, with working knowledge of Express.js and Node.js for building full-stack web applications.

My Projects

Project Name: NewsEdge

Overview: A full-stack newspaper web application for reading, publishing, and managing news articles with role-based access (admin, premium, normal). Includes premium subscriptions, article approval, and a complete admin dashboard.

🔗 **Live Site: https://newsedge-fb8f6.web.app/**
🔗 **GitHub Client: https://github.com/programing-hero-b11/newsedge-client-kira217-cyber**
🔗 **GitHub Server: https://github.com/programing-hero-b11/newsedge-server-kira217-cyber**

Key Features:
- View all published articles with filtering by publisher, tags, and title
- Secure authentication system using Firebase (Email/Password & Google)
- Role-based access control: Admin, Premium, Normal User
- Stripe integration for premium subscription and access to premium articles
- Admin Dashboard to approve/decline articles, mark as premium, and manage users
- Users can post articles (limit based on role) and view payment history
- Responsive UI with Tailwind CSS and DaisyUI
- Dark/light mode toggle and smooth animations using Framer Motion

Project Name: HobbyHub

Overview: A hobby-based social platform to find and join local interest groups.

🔗 **Live Site: https://assignment-ten-e8281.web.app/**
🔗 **GitHub Client: https://github.com/programing-hero-b11/hobbyhub-client-kira217-cyber**
🔗 **GitHub Server: https://github.com/programing-hero-b11/hobbyhub-server-kira217-cyber.git**

Key Features:
- Group creation and join requests
- Category-wise group filtering
- Dark/light theme toggle
- Firebase Authentication and MongoDB integration
